

BLOCK MARKETS AFRICA / OPEN

Indicative Pricing Framework

Generic Client Template

1. Purpose of this Indicative Pricing Framework

This document provides a high-level indicative pricing framework to help a prospective client assess the potential cost of onboarding onto the Block Markets Africa / Open platform.

The purpose of this document is to support early business case evaluation only. It is not a final commercial proposal, rate card, contract, mandate, or binding offer.

2. Key Pricing Assumptions

The indicative pricing framework is based on the following assumptions:

- 1 The prospective client will contract with Block Markets Africa / Open as the Client.
- 2 The Client's members, users, employees, beneficiaries, customers, merchants, or programme participants will be treated as the Client's customers.
- 3 The solution may include business wallets, customer wallets, payment transactions, wallet transactions, platform access, API and/or UI connectivity, KYC, reporting, reconciliation, and support services.
- 4 KYC services may include Sumsub or another approved KYC, AML, or verification provider, subject to the agreed onboarding model.
- 5 Third-party provider fees, including KYC, AML, payment processing, vouchers, messaging, bank charges, or other external costs, may be passed through separately or included in a bundled fee depending on the final commercial model.
- 6 Interest income or yield earned on qualifying wallet balances, where applicable, will be subject to the approved regulatory, treasury, and commercial structure.
- 7 Any Juristic Representative arrangement, where required, will be scoped separately and may affect commercial terms, oversight requirements, reporting obligations, compliance monitoring, and yield distribution.
- 8 Final pricing remains subject to business case review, compliance review, risk review, solution design, commercial approval, and contract finalisation.

3. Indicative Pricing Components

The final commercial model may include one or more of the following pricing components.

3.1 Once-Off Setup and Onboarding Fees

A once-off setup fee may apply to cover onboarding, configuration, environment setup, implementation planning, initial platform enablement, and project mobilisation.

Fee Item	Description	Indicative Basis	Indicative Price
Client onboarding fee	Setup of the Client on the Open platform	Once-off fee	R 30,000.00
Platform configuration fee	Configuration of platform settings, roles, access, reporting views, and programme settings	Once-off fee	Included in above
Implementation support fee	Support for onboarding, coordination, testing, and go-live readiness	Once-off or project-based fee	Included in above
API / UI enablement fee	Enablement of API access, UI access, documentation, and integration support	Once-off or phased fee	Included in above
Sandbox / test environment setup	Setup or enablement of a test environment for integration and UAT, where required	Once-off fee	Included in above
Go-live readiness support	Support for final readiness checks, launch planning, issue tracking, and operational handover	Once-off fee	Included in above

Final setup pricing will depend on the complexity of the solution, the number of environments required, integration scope, testing requirements, and go-live approach.

3.2 Monthly Platform Fees

A monthly platform access fee may apply for access to the Open platform and associated operating capability.

The platform access fee may include standard dashboard access, API access and maintenance, standard reporting, and standard reconciliation support, unless otherwise agreed.

Fee Item	Description	Indicative Basis	Indicative Price
Platform access fee	Access to the Open platform, wallet infrastructure, core operating environment, client administration capability, dashboard access, API access, API maintenance, standard reporting, and standard reconciliation support	Monthly fee	R 30,000.00
Additional platform environment	Additional platform instance, business unit, programme structure, or operating environment, where required	Monthly fee	If required
Enhanced reporting pack	Additional reporting beyond the standard reporting pack	Monthly fee or scoped separately	If required
Enhanced reconciliation support	Additional reconciliation support beyond standard platform reporting and extracts	Monthly fee or scoped separately	If required
Dedicated service management	Dedicated account, service, or operational management cadence, where required	Monthly fee	If required

The platform fee may be structured as a fixed monthly fee, a tiered monthly fee based on active customers or wallets, or a hybrid model combining a base fee with usage-based charges.

3.3 Juristic Representative and KYC Fees

Juristic Representative and KYC fees may apply where the Client requires regulatory onboarding, customer verification, AML screening, identity verification, enhanced due diligence, or other compliance-related services.

The final KYC model will depend on the customer onboarding journey, wallet limits, risk profile, required verification level, and applicable regulatory requirements.

3.3.1 Juristic Representative Fees

Fee Item	Description	Indicative Basis	Indicative Price
Juristic Representative onboarding	Setup, review, and onboarding of the Client into the applicable JR framework, where required	Once-off fee	R 25,000.00
JR appointment pack	Preparation, review, and management of required appointment documentation, where applicable	Once-off fee	Included in above
JR oversight and monitoring	Ongoing compliance oversight, monitoring cadence, escalation process, and reporting requirements	Monthly fee	R 20,000.00

3.3.2 KYC and Verification Fees

KYC Line Item	Description	Indicative Basis	Indicative Price
AML with Sumsub Credentials	AML screening using Sumsub credentials and/or ComplyAdvantage capability, where applicable	Per check / per customer	\$ 0.36
Identity Document Verification	Verification of identity document authenticity and validity	Per check / per customer	\$ 0.65
Known Face Search	Face search against known records or databases, where applicable	Per check / per customer	\$ 0.10
Liveness and Face Match	Liveness detection and facial matching against submitted identity evidence	Per check / per customer	\$ 0.28
Questionnaire	Customer questionnaire, declarations, or risk-related onboarding questions	Per completed questionnaire	\$ 0.11
South Africa SAID Verification: zaf Gov ID	South African ID verification using the applicable government ID verification source	Per check / per customer	\$ 0.10
South Africa SAID Verification: zaf Gov ID docfree	South African ID verification without document upload, where available and applicable	Per check / per customer	\$ 0.98

KYC fees may be charged as direct pass-through costs, marked-up unit fees, bundled onboarding fees, or volume-tiered fees depending on the approved commercial model.

3.4 Transaction Fees

Transaction fees may apply to payment transactions, wallet movements, customer funding, withdrawals, transfers, voucher transactions, and other approved payment flows.

Fee Item	Description	Indicative Basis	Indicative Price
Payment transaction	Payment transaction processed through an approved payment method or payment rail	Per transaction / percentage / blended fee	R 2.00
Wallet-to-wallet transfer	Transfer between wallets within the platform environment	Per transaction or bundled	R 0.00
Wallet funding / cash-in	Funding of wallets through approved payment methods	Per transaction / percentage / pass-through	R 2.00
Wallet withdrawal / cash-out	Withdrawal or payout from wallet to bank or other approved channel	Per transaction / pass-through	R 5.00
Voucher purchase or redemption	Retail voucher or benefit redemption transaction, where applicable	Per transaction / provider-dependent	R 2.00
Reversal, refund, or exception handling	Operational support for failed, reversed, disputed, or exception transactions	Per event or support fee	R 2.00

Final transaction pricing will depend on the selected payment rails, expected transaction volumes, transaction values, average transaction size, funding method, settlement model, reconciliation requirements, and third-party provider fees.

3.5 Service and Support Fees

Service fees may apply where the Client requires operational support, customer support, reconciliation support, escalation management, or dedicated service management.

Fee Item	Description	Indicative Basis	Indicative Price
Standard support	Standard operational support and issue management	Included or monthly fee	Included in monthly fee
Enhanced support	Extended support, escalation management, reporting cadence, or dedicated support process	Monthly fee	If required
Customer support portal	Support process, ticketing, escalation channels, and operational tracking	Monthly or setup fee	Included in monthly fee
Reconciliation support	Support for transaction matching, exception management, and reporting beyond standard platform reporting	Monthly or usage-based fee	Included in monthly fee
Custom reporting	Reports outside the standard reporting pack	Project-based or monthly fee	If required
Training and enablement	Training for Client administrators, support teams, or operational users	Once-off or session-based fee	Included in monthly fee
Operational change support	Support for changes to operating processes, product rules, customer communication, or launch procedures	Project-based fee	If required

The support model should be confirmed once the Client has defined expected customer volumes, service levels, internal support capability, and escalation requirements.

3.6 Interest Income / Yield on Balances

Where qualifying wallet balances generate interest income or yield, the commercial treatment will be subject to the approved treasury, regulatory, and commercial model.

Yield Item	Description	Indicative Treatment	Indicative Price / Allocation
Interest or yield on qualifying balances	Yield generated on eligible balances held within the approved structure	Shared or allocated under agreed commercial model	TBC
Client share	Portion allocated to the Client or used to support programme economics	To be agreed	TBC
Platform / operating share	Portion retained for platform, operating, treasury, or partner costs	To be agreed	TBC
Customer benefit allocation	Portion used for customer rewards, incentives, or programme benefits, where applicable	To be agreed	TBC

Any yield distribution will depend on the final structure, applicable regulatory requirements, wallet balance levels, treasury treatment, and whether a Juristic Representative or other regulated arrangement is required.

No yield share should be treated as confirmed until the structure has been reviewed and approved.

4. Commercial Qualification

All pricing remains indicative until the business case has been reviewed and the commercial model has been approved.

The final commercial proposal may include a combination of setup fees, monthly platform fees, KYC fees, JR fees, transaction fees, service fees, support fees, third-party pass-through costs, and any agreed treatment of interest income or yield.

No pricing, fee, yield allocation, or commercial structure should be regarded as final or binding until confirmed in an approved commercial proposal and signed agreement.
